8. Operational Schedule
Dear Student,

We welcome you to our Post-graduate Diploma Programme in Higher Education.

All of us who are associated with this programme and you as one of its participants have surely some interest in higher education. Perhaps you may be a practicing teacher in an institution of higher learning, an undergraduate college, a professional college or perhaps a university department, or may be, you are planning to take up teaching career in one such institution. You may be teaching Economics or Physics, Mechanical Engineering or Fine Arts, Paediatrics or Social Work. Whatever may you specialization be, you may have a genuine interest to study more about this field ‘higher education’. After all, you are a practitioner of higher education, or perhaps you are aspiring to be one. We presume that it is this interest of yours has prompted you to join this PG diploma programme.

The PGDHE that you have enrolled in has been thoroughly revised to incorporated the latest developments in the field of higher education. The feedback for this purpose had been collected from students of the previous batches, our counselors, teachers, both from inside and outside, IGNOU and other experts in the field. We do hope you will find the discussions in the programme useful and interesting.

The mode of teaching-learning in this programme is very different from that in most of the university level courses you may have gone through. Here, the teaching-learning takes place through print materials which are mailed to you, audio and video programmes which you could watch or listen to on TV or at our Study Centre near the place of your residence, counseling sessions at the study centers, assignments which you need to submit from time to time for which we will give you our feedback and through an extended contact programme which we organize for you. This is what is called the distance mode of learning. Now that you have enrolled yourself in a programme through the distance learning mode, it is quite natural that you have many questions to ask, especially receive from time to time, you should have some understanding of the post-graduate diploma programme in higher education offered by IGNOU. Such an understanding will enable you to know what you can expect from this PG diploma programme, why you may have chosen this programme and how to complete it successfully.

This Programme Guide gives you some general information about the programme, its aims, its components, medium of instruction, use of audio-video programmes, duration of the programme, fee, course structure, unit structure and some useful suggestions regarding study materials, assignments, and counseling sessions. Besides, we shall give you some relevant details about project work, study centers, extended contact programme, examinations, etc. To start with, the information given here is enough to prepare you to study the course materials and participate in the counseling sessions.

With best wishes,

Members of Faculty
School of Education
IGNOU

It would be of interest for you to know that, for the purposes of career advancement, the UGC has recognized the PGDHE as being equivalent to one orientation programme for teachers from all disciplines except education and as equivalent to two refresher courses for teachers from the discipline of education.
1. GENERAL INFORMATION

A Few Common Questions

You may perhaps want to ask the following questions:

- What degree / diploma is this Post-graduate Diploma in Higher Education (PGDHE) equivalent to?
- How is it going to help those who are already teaching at the higher levels of education?
- What employment opportunities does this Diploma provide?
- Is this PG Diploma a recognized one?

We will try and answer these questions briefly but as satisfactorily as possible. Before we do so, let us talk a little on who our target groups are.

Who is the PGDHE Meant for?

The Post-graduate Diploma in Higher Education is primarily meant for all those who are concerned about higher education. Teachers who work in institutions of higher learning are our primary audience. But those who have acquired the requisite qualifications and aspire to become teachers in institutions of higher learning may also take up this programme. We identify the following as our main target groups:

a) Those who teach in universities, colleges or professional institutions provided they have the qualifications listed under (b) below.

b) Those who have completed successfully a post-graduate degree or obtained a professional degree with a second division and aspire to become teachers in one of the institution mentioned under (a) above.

c) Those teachers in colleges and universities who want to undertake orientation / refresher courses for career advancement as this programme has been accorded equivalence by the UGC.

Some Answers

Let us now try and answer the above questions in the given order.

- This Post-graduate Diplomas is unique in itself, because its purpose, intention and academic inputs are different from those of other diplomas or degrees offered by various educational institutions. PGDHE is, for instance, different form B.Ed. in that B.Ed. essentially prepares school teachers, while this PG Diploma is meant to prepare or improve the performance of teachers in institutions of higher learning. B.Ed. is a compulsory professional qualification for a graduate to take up teaching at secondary school level in India. It also qualifies a post-graduate to teach at the higher secondary school level. PGDHE, on the other hand, is also a professional qualification, but it is meant for post-graduates or professional degree holders...
who teach or aspire to teach at the post-secondary stage, that is, in intermediates,
dergraduate, post-graduate and professional colleges, polytechnics, universities and other
institutions of higher education. However, it is not as of now a compulsory qualification for
teaching at these levels. PGDHE is not a research degree the way M.Phil. is. PGDHE is again
not comparable to “Diploma in Education”. The latter is normally meant for matriculates
teaching at the primary school level. Finally, PGDHE cannot be compared with the National
Education Test (NET) conducted by the UGC. Obviously, PGDHE is not mere test; it is an
educational programme.

The academic inputs provided in the PG Diploma are, to some extent, similar to those
provided at academic staff colleges. The academic staff colleges provide a general orientation
to higher education and then a subject upgradation input, whereas the PG Diploma in Higher
Education gives much more than just a general orientation to higher education. The UGC has
now recognized the PGDHE as being equivalent to one orientation programme for
teachers from all disciplines other than education, and as equivalent to two refresher
courses for teachers from the discipline of education. This has been done for career
advancement of the teachers. So, it is a professional training programme meant for those
engaged in higher education.

It is also interesting to note here that the Rastogi Committee (1997) on teachers in higher
education recommends a programme like the PGDHE of IGNOU as a desirable input
for professionalisation of teaching at higher education.

• Those who are already teacher at higher education, and who undergo this programme may
find it useful for the following reasons.

- this will provide an additional qualification which may help them improve their
  professional competencies, promotion, etc.

- this will equip them with relevant competencies, knowledge and skills which will in
  turn help them perform better as teachers as administrators.

• Those who have the relevant qualifications and who aspire to become teachers in institutions
of higher learning may also benefit from this PG Diploma. There is a possibility that the PG
Diploma may receive special weightage when people are selected / appointed for the various
academic / administrative positions at institutions of higher learning.

• Indira Gandhi National Open University, came into existence by an Act of Parliament in
September 1985. The programmes, i.e. Degrees, Diplomas, etc., offered by IGNOU are
therefore treated at par with those offered by any of the central or state universities of India.
So you need not worry about the recognition of this PG Diploma. Any course launched by
IGNOU is a recognized course. The PG Diploma in Higher Education has been specifically
developed according to the responsibility entrusted to IGNOU in the National Policy on

We hope we have answered satisfactorily some of the questions given above the PG Diploma
Programme in Higher Education. Now, let us turn to some of the specific details regarding the
Programme itself.

Aims of the PG Diploma Programme

Acknowledging the need for creating opportunities for professional development among teachers
of higher education, the National Policy on Education – 1986 had called for initiating a distance
education programme for this purpose. It had charged IGNOU with this responsibility. The PG Diploma Programme in Higher Education has been visualized and developed in response to this recommendation of the National Policy on Education – 1986. The Rastogi Committee (1997) on teachers in higher education reiterated the same view. This programme has been created with a view to providing a university or college teacher, or a person who is qualified and who aspires to be one, with the necessary knowledge, understanding and skills pertaining to higher education.

More specifically, the objectives of the PG Diploma are to enable the participants:

a) to acquire a perspective regarding the system of higher education in India, its context, its functions and its linkages with other systems;

b) to develop professional competencies associated with an effective university teacher, and

c) to develop readiness to undertake reforms and innovations in the practice of higher education.

Eligibility

Regular teachers in universities, colleges and other institutions of higher learning and those having a post-graduate or a professional degree in any subject as per the requirements prescribed by the UGC and other such agencies for recruitment of lecturers in institutions of higher learning are eligible to apply.

Medium of Instruction

The medium of instruction is English. We offer this programme in English, i.e. the print, audio/video materials and assignments are in English and we expect your responses to the assignments also in English. However, those who desire to write assignment-responses and answers to term-end examination questions in Hindi are allowed to do so. Moreover, if you so wish, you may submit your project proposals/outlines and then the Project Reports (Course V) also in Hindi. Of course, such proposals and reports in English are welcome.

Duration

Normally, you can complete this PG Diploma in one year. But some of you may need, for some inevitable reasons, more time to complete it. Keeping in view the constraints which may demand some of your time, we allow you to take three more years. In essence, you can complete your PG Diploma either in year or upto a maximum period of four years from the date of admission. But we would like you it complete it in one year.

However, a certificate of completion in one or more successfully completed Course(s) can be awarded on request to students who do not wish or are unable to complete all the five courses required for claiming the PG Diploma within four years as said above.

Fee

If you pay the fee once you continue to be on our rolls, even if you take more than one year to complete the PG Diploma. However, the fee is valid only up to four years from the date of admission. Besides, it is valid for only the PG Diploma in Higher Education. Fees once paid are not refundable on any account whatsoever, nor are then transferable.
As regards the Programme Fee, for those whose admission is confirmed, it may be paid in one instalment of Rs. 1,100/- at the time of acceptance of admission. Apart from the Programme Fee, a student has to pay registration fee of Rs. 300/- at the time of admission. The total amount to be paid for completing this PG Diploma will be Rs. 1,400/-.

The Extended Contact Programme (ECP) the sixth course of the PGDHE like the other five courses is compulsory for all of you. This is a course, which requires your physical presence, and hence attendance on all these days is must. A separate registration fee of Rs. 300/- is charged from all those participating in the ECP. Further necessary details like the scheduling and the venue of the Extended Programme (ECP) will be communicated to you by the concerned Regional Director.

2. COURSE STRUCTURE

The PGDHE programme consists of six courses, two of them being a project (i.e. Course 5) and a face-to-face contact programme. Each course (except Course 5 and Course 6) consists of four booklets, a few audio and a few video programmes. The details are given below:

MES 101 HIGHER EDUCATION: ITS CONTEXT AND LINKAGES

This course attempts to place higher education in its socio-historical and development perspective. Besides it discusses the aims of higher education and examines the place of higher education in India in relation to the constitutional provisions and its development through five year plans. The course also deals with the various problems and emerging concerns in the area and presents a detailed discussion on the progressive role of the Indian university teacher in providing a suitable direction to the university as well as the society.

MES 102 INSTRUCTION IN HIGHER EDUCATION

The course deals with the dynamics involved in classroom instruction in higher education in a systems perspective. It presents the various relevant instructional inputs and discusses their potential in the context of the different instructional objectives. This is followed by a detailed examination of the instructional process wherein the instructional inputs are in operation. And
Lastly, the course provides perspectives for evaluation in higher education and discusses the mechanics involved in the evaluation of higher education instructional outputs.

**MES-103 HIGHER EDUCATION: THE PSYCHO-SOCIAL CONTEXT**

This course has been developed to provide all those who are concerned with higher education, a basic understanding of the significant psychological factors and processes which influence teaching, learning and students development in the college and university years. An attempt has been made to address these issues from the experiential frameworks of psychology. A special effort has been made to include all contemporary developments in the field which have implications for higher education.

**MES 104 PLANNING AND MANAGEMENT OF HIGHER EDUCATION**

The course gives a broader perspective on the planning and management of higher education in the country and focuses on its structural and organizational characteristics. It also discusses the different managerial components in the institutional context as well as provides some useful tips to the teachers for reorienting their managerial skills. Lastly, it discusses the various steps involved in curriculum planning and development, and the role of teachers in selecting their instructional strategies meaningfully.

**MES 105 PROJECT WORK**

The course on Project Work requires you to work on a theme in an area of your choice within the framework of the contents of the above four courses. The tasks for the project work could be production of a course, survey of learner needs, etc. The Project Work is meant to help you manifest and explore your specific area of interest.

A few lines on how to develop the Project Report. You have to work on a Project in an area of your choice but essentially related to higher education. We are giving you a few suggestions which will enable to make up your mind about Project Work. However, you are free to suggest your own topic(s) for it. You can work on you Project, only after your Project proposal is approved.

The word ‘Project’ should not scare us. It simply means a preliminary form of research. You will have to collect some relevant information and data pertaining to a particular theme, a problem or an issue. For this purpose, we have developed a Research Manual to familiarize you with the process of research incorporating different types of research especially in the context of education. You may read this manual very carefully before embarking on your proposal. After collecting information and data you should analyse it carefully and draw your own conclusions. When you put all these together in a coherent form and in an intelligible language, you state the theme, collect information / data on it, analyse the data and draw conclusions from your analysis, you will get your project report. We shall help you overcome your difficulties, if any, when you are on your Project.

**Course 6 Extended Contact Programme (ECP)**

The Extended Contact Programme, a compulsory ten day face-to-face situation has been visualized as a component to develop those skills and competencies that are required for teaching at the higher level. The ten-day interaction is built round lecturers, discussions, individual and
group activities derived from all the five courses of the PGDHE. The objectives is to cull out from the theoretical discussions, the practical area for which a face-to-face contact is essential. Please refer to page 12 for more details on the ECP.

3. INSTRUCTIONAL COMPONENTS

Print Material

As mentioned, the PG Diploma Programme comprises four theory Courses, a Project and a practical oriented ECP. Each theory Course comprises 4 Blocks, and each Block consists of 3-5 Units. In other words, you are required to complete 66 Units which will be presented in 16 Blocks; 4 of these Blocks thus, constitute a Course.

Audio and Video Programmes

The audio or video programmes may not give you any new information, but they will certainly supplement the print materials. You will grasp some concepts / ideas given in print more clearly with the help of the audio/video media. You may also have the satisfaction of learning through different media and thus get motivated to keep on with your study. If you make use of all these media, you will have less difficulty in writing your assignment responses and preparing for the final examinations. However, you should not be under the impression that without the help of the audio-video programmes one cannot complete the Post-graduate Diploma Programme. Audiovide programmes may give you additional help. That is all.

Assignments

Assignments are integral and compulsory component of PGDHE’s instructional system. There are three tutor-marked assignments for each course (except for Course 5 and Course 6). You can submit 3 assignments in each course out of which the best 2 will be evaluated. Make sure to answer assignment nos. 3, 6, 9 and 12 as they are compulsory. You should submit all the 12 assignments within the stipulated time. The assignment submission schedule is provided in Section 10 in the Programme Guide.

The 12 assignments for the courses 1 to 4 of the PGDHE is given in a separate booklet sent to you in the first dispatch. You can see in the sub-section on evaluation in this Programme Guide how the assignments fit into the total evaluation scheme of the PGDHE. More information on how to work on the assignments is given in Section 6 in this Programme Guide.

Academic Counselling Sessions

In distance education, face-to-face contact between the learners and their tutors/ counselors, though minimal, is an important activity. The purpose of such a contact is to answer some of your questions and clarify your doubts which may not be possible through any other means of communication, besides giving you an opportunity to meet your peers. The counseling sessions are not compulsory. However, they may be very useful in certain respects to share your views on the subject with your teachers and fellow participants, comprehend some of the complex ideas or difficult issues, and get clarifications for many of your doubts which you may not otherwise get an opportunity to discuss.
Obviously, counselling sessions will be very different from the usual classroom teaching or lecturers. Your tutors/ counselors will not be delivering lectures or speeches. They will try to help you overcome your difficulties which you face (academics as well as personal) while studying for the PG Diploma. In these sessions you must look into the subject-based difficulties and any other issues arising out of those difficulties. Besides, some of the audio and video cassettes that are available at that time will be played, and their content could be analysed and discussed.

The counseling sessions will be usually conducted at your nearest Study Centre. Before you go to attend the counseling session, please go through your course materials. Unless you have gone through the Units / Blocks, there may not be much to discuss. During the counseling sessions try to concentrate on the relevant and the most important issues (it is quite likely that some minor issues may distract you attention and you may not have the time to discuss the major ones). Also try to understand each other’s points of view, without turning the session into a seminar or a debate. Your may also establish personal contact with your fellow participants to get mutual help for academic purposes. Try to get the maximum possible help from your counselors / tutors and peers.

**Extended Contact Programme**

The ECP will have a duration of ten days at a stretch. It will be compulsory for all participants to participate in the ECP. Each day of the ECP will comprise several sessions, devoted to lectures, discussions, small group work, workshops, practice in communication skills or individual work. One major component of the ECP is a set of several sessions, (involving work in small groups categorized according to the subject-area) devoted to course design.

Substantively, the ECP will cover various aspects related to all the five courses of the PGDHE. The main assumption in the ECP is that you would have gone through all the four courses and are familiar with the idea of Project Work before coming for the ECP. There would be a certain preparation or pre-ECP activities you are expected to undertake before the ECP. Information regarding this has been detailed out in the Students' Handbook which you will receive before the start of the ECP. There will be a few sessions devoted to tests. There will be some individual and / or small-group projects (apart from Course 5) to be completed during the ECP. Participation in the ECP and performance in the tests and projects therein will be valuated. For deriving the maximum benefit out of the inputs provided at the ECP, you should have already gone through all the course materials of the PGDHE.

ECP will be organized in several places, at least one in each region. It will be conducted as far as possible during a time when the colleges in the region have their vacations.

**Evaluation**

Only those candidates who successfully complete all the six courses in PGDHE including the ECP, by attaining at least the minimum grade requirements in each course, will be deemed eligible for the award of the PG Diploma in Higher Education. However, certificates may be awarded for the successful completion of each course separately, if the individual so desires.

The evaluation system in the PGDHE Programme is based on three components:

a) Self-evaluation exercises within each unit of study. (No weightage)

b) Continuous evaluation in the form of periodic assignments – this component carries weightage of 30% for each course (except Course 5 (Project Work) and Course 6 (ECP)).
c) Term-end examination has a weightage of 70% of the total weightage for each course (except MES-105 and MES-106).

Examinations are held in the month of December every year. In other words, in the year of his/her admission a student can sit for the term-end examination in December only.

For a course, a student will have to obtain at least D grade in both continuous and terminal evaluation separately. However, the overall average should be at least C grade for the successful completion of a course.

If a student misses any Term-end Examination of a course for any reason, he/she may appear for it in the subsequent Term-end Examinations. This facility will be available until a student secures the minimum pass grade, but up to a maximum period of four years from the date of registration.

Letter grade system is used for grading continuous and terminal examination components. These letter grades are:

A  Excellent
B  Very Good
C  Good
D  Satisfactory
E  Unsatisfactory

Unit 15  Mechanics of evaluation-I
Unit 16  Mechanics of evaluation-II
Unit 17  Processing evaluation data
Unit 18  Alternative evaluation procedures
Unit 19  Online/web-based student assessment

**COURSE 3  MES - 103 HIGHER EDUCATION-THE PSYCHO-SOCIAL CONTEXT**

**Block 1**  Towards understanding the Indian college students: A psycho-social perspective

Unit 1  Profiling the indian college student
Unit 2  Understanding personality and facilitating its development
Unit 3  Cognition: concept and approaches
Unit 4  Intelligence and creativity: concept, theories and strategies for development

**Block 2**  Institutional life and culture: looking at structures, issues and perspectives

Unit 5  Understanding institutions: a psycho-social perspective
Unit 6  Dynamics of classroom management and their implications for practice
Unit 7  Communication and interpersonal relationships: concepts and implications for classroom management
Unit 8  Motivation and stress management: basic issues and classroom implications
Block 3  Towards understanding the processes of teaching and learning in higher education

Unit 9  Learning: concept, nature and factors influencing it

Unit 10  Approaches to learning

Unit 11  The special learner: concepts, needs and facilitation strategies

Unit 12  Strategizing teaching and learning: models of teaching and contemporary approaches

Block 4  Guidance, counseling and mental health issues in higher education: some theoretical formulations and practical insights

Unit 13  Guidance and counseling needs of young adults

Unit 14  Mental health problems, issues and concerns

Unit 15  Envisioning the university teacher as a counsellor and mental health facilitates

Unit 16  Adjustment and mental health: concepts, processes and perspectives

COURSE 4  MES-104 PLANNING AND MANAGEMENT OF HIGHER EDUCATION

Block 1  Planning and Management of Higher Education: A Macro-perspective

Unit 1  Planning and management of higher education: a macro-perspective

Unit 2  Structure and organisation of higher education in India

Unit 3  Universities in India

Unit 4  University and its structure

Block 2  Management of an Institution of Higher Learning

Unit 5  Principles of managing an institution of higher learning

Unit 6  Aspects of institutional management-I

Unit 7  Aspects of institutional management-II

Unit 8  Aspects of institutional management-III
Block 3  Teacher and Organisation

Unit 9  Managerial skills for teacher: communication, motivation and teamwork

Unit 10 Managerial skills for teacher-II

Unit 11 Managing classrooms: climate, tasks and learning

Unit 12 Management of extension, community centred and co-curricular activities

Block 4  Planning and Management of Curriculum

Unit 13 Curriculum planning

Unit 14 Curriculum development

Unit 15 Curriculum transaction

Unit 16 Curriculum evaluation

COURSE 5 PROJECT WORK

COURSE 6 EXTENDED CONTACT PROGRAMME (ECP)

5. STUDY CENTRES

IGNOU has established a number of study centers throughout the country. These centers provide counseling facilities on scheduled days at fixed hours on a regular basis, and also act as information centers and as exam centers. 96 study centers are proposed to give counseling facilities for PGDHE courses. Study centers also have basic library books related to the concerned programmes. Each student is assigned to a study center where he/she also submits the assignments to study center coordinators. In case a student does not go to his/her study center in person, the assignments can also be mailed to the concerned coordinators.

The list of the study centers activated for the PGDHE programme is given on the next page.

6. GENERAL INFORMATION REGARDING ASSIGNMENTS

You must have already gone through the sub-section on assignments in Section 3 in this Programme Guide. You may be anxious to know what is expected of you when you answer the assignments.

The purpose of our asking you to work on the assignments is as much to test your comprehension of the learning materials you receive from us as to help you get through the Courses. Some of the assignments are theoretical and some are practical in nature. Assignments of theoretical nature will require you to write essay type and/or short answers and while answering the application-oriented assignments you are required to apply the knowledge gained through a Block / Course. In either case, the answers should be your own. You should not reproduce the text materials or copy the information from other sources. However, you can use the materials and information you may have. Whenever you quote from the text/books/journals, you must give the reference. (You can pick up ideas from whatever sources you may have, but then plan and use them in your own words when you write the answers to the assignments). Please do not worry about the non-availability of extra reading materials, such as books, journals etc., for working on the assignments. The information given in our course materials should be sufficient for answering the assignments. (Nevertheless, if you have easy access to other books etc., you may make use of them. But the assignments are designed in such a way as to help you concentrate mainly on the course materials and exploit your personal experience).

The following norms are to be strictly practiced when you work through the assignments:

- The answers should be precise, well-documented and relevant to the questions raised or points/suggestions made in the assignments. Make sure that you have attempted to deal with all the main points/sections of the assignment.

- There is a specification of length (in terms of number of words) for most assignments. Please abide by this words limit as strictly as possible. Avoid discussing minor issues at great length. At the same time, do not make your answer too sketchy. By setting a word limit for some of the assignments we mean to convey that from our point of view a reasonably adequate response can be presented within the suggested word limit. Of course, one could write a shorter or a longer response, but such a deviation, we think, will bring the adequacy of the response into question.

- Write your answers in your own hand. If your handwriting is not legible and if you are convinced that other will have difficulty in reading your handwriting, you may type your responses.

- Send the assignment-responses before the date set for each assignment to the study center you are attached to. You can complete your assignments easily if you send us two assignment-responses per month. That will also give us sufficient time to go through your answers, comment on them and send them back to you.

How to Send in Completed Assignment-Responses and Other Issues

1. Write your enrolment no., name and full address and date at the top right hand corner of the first page of your assignment-response(s).

2. Write the Course title and assignment number in capital letters in the center at the top of the first page of your response(s).
(Leave the top left hand corner blank for office use). The top of the first page of your response(s) should look something like this:

Course Title ........................................ Enrol. No. ........................................
Assignment No. ...................................... Name ........................................
Address ................................................ Date ........................................

(Please follow the format strictly. If you do not follow this format we will be obliged to return your responses to you for resubmission. If you do not write your enrolment number and address, your assignment-responses are likely to be lost).

3. The assignment-response should be complete in all respects. Make sure you have answered all the questions in an assignment before you send it to us. Incomplete responses will bring you poor grades. Don’t send responses piece-meal they may never be put together in our offices.

4. Use only footstep size paper for your responses. Use ordinary writing paper, not the very thin variety.

5. Leave a 3/2” margin in the left, and at least 4 lines in between each answer in an assignment-response. This will enable your tutor to write useful comments at appropriate places.

6. Make sure you answer the questions on the basis of the Units sent to you.

7. You should not send printed articles as your answers to assignments.

8. Please keep a copy of the assignment-responses which you send us. You may need this in case you have to resubmit it in a situation when it may have been lost in postal-transmit.

9. Please file all letters that the university sends you, and keep the Programme Guide and the Supplements to Programme Guide (if any) handy. A record of your progress is maintained at our Computer Division.

10. Do write to us if you have any difficulties or problems while working through the Programme. Remember to intimate the relevant authority sufficiently in advance, if there is any change of address and its duration, if the change is temporary. This will help the concerned send you lessons and letters promptly, without any risk of their being lost.

11. All types of communication (letters, applications, etc.) are attended to as quickly as we can. It is, therefore, desirable that you make your letters brief and precise. If your letters present irrelevant details or are written in ambiguous and objectionable language, our responses to your queries will invariably get delayed.

12. The university reserves the right to change the rules detailed in this Student’s Programme Guide. However you will be informed about those changes through supplementary circulars well in advance.

13. Any two or more answers to a particular assignment found to be similar to the point of being identical are viewed with disfavour. Such answers may either be returned unmarked, or awarded very low grades.

(Please note that it is entirely at the discretion of the evaluator to ask you to re-do the assignment or award a very low grade in such cases).

14. In your own time-table you must make provision for unforeseen difficulties, such as illness, official duties, various social obligations, etc. By doing so, you will save yourself from unexpected delays and forced / unwanted postponements. The golden principle is to do it today what you may have planned to do tomorrow.

33
Some Do's and Don'ts

Do's

15. When you receive a set of materials, Units and assignments, check them immediately and ask for the missing page(s) unit(s) assignment(s). If you wait till you start writing answers to the assignments, you will lose valuable time.

16. Write your enrolment number correctly. A slight change in the number may put the university and you to trouble.

17. Maintain an account of assignment-responses sent to the relevant Study Centre and the corrected responses received by you. This will help you maintain the schedule of your work and avoid any difficulties and disappointments caused by unintended gaps in communication.

18. Do work regularly. You should remember that by working regularly you get a chance to do better in later assignments because you can benefit from your tutor's comments.

19. Before you write to us to answer your queries, do read this Programme Guide carefully; we may already have answered your query/queries.

20. Do follow our instructions carefully.

Don’ts

21. Do not write your assignments/letters on thin paper.

22. Do not write your enrolment number, course title, etc., on a separate sheet and then paste/pin/tie it to the assignment. Write the enrolment number and the name on the top of assignment-response itself.

23. Do not over-write, particularly, while writing your enrolment number and the assignment number. Let these be very distinct and clear.

24. Do not remind the Study Centre concerned to send back corrected responses. These will be sent to you at the earliest possible opportunity, if you follow the deadlines for submitting them.

25. Do not misplace/lose your graded assignment-responses. You will need them till the Programme is over.

26. Do not enclose doubts for clarification, if any, along with the responses. Send them separately giving your enrolment number, name, address, the title of the course, the number of the Unit or the assignment, etc. If you want to draw our attention to something of urgent/important nature, send it in a separate cover.

27. Do not lift sentence(s) paragraph(s) from the text without giving the reference while answering the assignments.

28. Do not get admitted to more than one Programme of the University simultaneously. The University Regulations do not allow it.

The Post-graduate Diploma Programme and the system that offers it are relatively new. It is quite likely that some of you may be wondering how to complete this Programme successfully. If should not be difficult for you to complete this Post-graduate Diploma Programme if you plan your work schedule sufficiently carefully. If you practic e a somewhat systematic way of studying the materials, much of your job will become easy. Here are a few suggestions to make your study easy and interesting.

We understand that adult learners will have many domestic and social commitments to attend to. But it is possible to organize some time for your studies. Convince your colleagues and family members that you need some privacy to study and stick to a regular time-table. As soon as you receive the first set of your reading materials, start working on them. Do not postpone studying the materials or writing your assignment-responses.
For obvious reasons, printed materials will be the primary form of instructional materials, although there will be a few audio-video programmes and counseling sessions. Naturally, you will have to concentrate mainly on the printed materials we send you. The booklets or Blocks for the four courses will give you enough information to write your assignment-responses and prepare for the final examinations.

Read the Units carefully and note down the important points. You can use the space in the broad margin of the printed pages for making notes and writing your comments. Try to answer ‘Check Your Progress’ questions. Please remember the answers to these questions are not to be sent to us. The purpose is to enable you to evaluate your own performance and to keep you on the right track. That is why they are called ‘Self-Check’ questions. They will enable you to check whether you have comprehended what you have read. If you are not satisfied with your answers, do not get worried. You can compare your answers with the model answers and see where improvement is needed. (At times, it is possible you may have a better answer than the one we presented. We welcome your suggestions). In any case, they will help you reinforce the information/knowledge you gain through your first reading of the text.

7. EXAMINATIONS

In addition to the assignments discussed in an earlier section, the other component of the evaluation in the PGDHE is the term-end examination. Exams are held in December every year. The only conditions for taking the exam is that he/she should have completed the minimum time prescribed for the programme pursued which in case of this PG Diploma is one full academic year, i.e. a student can sit for the term-end examination for the first time earliest in the month of December in the year of his/her admission.

If a student misses the Term-end Examination of a course for any reason, he/she may appear for it in the subsequent Term-end Examination. This facility will be available until a student secures the minimum pass grade, subject to the limit of a maximum period of four years from the date of registration.

For a course, a student will have to obtain at least D grade in both continuous and terminal evaluation separately. However, the overall average should be at least C grade for the successful completion of a course. The letter grade system used for terminal examination has already been explained in the section on Evaluation.

If a student fails to clear all the subjects in his/her first attempt, he/she can clear them in the subsequent examination. In this connection you are advised to use the examination application blanks attached to this Programme Guide as and when you need them. No application blanks will be dispatched by the University / Regional Centres unless asked for. For this purpose, you are allowed to use photo copies of the application blanks attached in this guide.

The Term-end Examination in PGDHE will comprise four papers, i.e., one paper each for the four courses in PGDHE. The duration of each paper is three-hours.

Now a word on the nature of the question papers too. To begin with, we want to get rid of the phobia that is so typically associated with exams. Our purposes is not to scare you but to help you get through the Diploma by testing all that you have gained during the course of the Diploma. So, there is nothing to panic about each question paper pertaining to a course has three sections carries equal weightage. The questions will usually to be of three types- theoretical or essay type, short answer questions and application-oriented questions. Each section will offer reasonable choice (s) to the extent possible.
In order to get a clear picture about the examination and evaluation system which the School of Education may follow, we suggest that you read the sub-section on EVALUATION in Section 3 of this Programme Guide carefully.

Term-end Examination question papers of ES-301, ES-302, ES-303 and ES-304 (unrevised codes) for the years 1995, 1996 and 1998 are given at the end of the Programme Guide. These question papers would acquaint you with the type of questions asked in the Term-end Examinations.

P.G. DIPLOMA IN HIGHER EDUCATION
Term-End Examination
December, 1995

*ES-301 : HIGHER EDUCATION: ITS CONTEXT AND LINKAGES

**Time:** 3 hours  
**Maximum Weightage:** 50

**Note:**  
i) Attempt all four questions  
ii) All questions carry equal weightage.

1. Answer the following in about 900 words.

Discuss critically the growth and development of the higher education system in India, both in quality and quantity, pointing out the positive and negative features.

OR

What were the interests of the British Empire in promoting education in India? Discuss the legacies which continue to be structurally present in our system of education especially at the higher level.

2. Answer the following in about 900 words.

For some the university is the detached center of knowledge and research, for others it is the symbol of embodiment of tradition, while for some it is a seedbed of resolution. In the light of this statement, discuss your opinion on the role of the university in contemporary society.

OR

"The system of higher education in India is committed to the twin objectives of equity and excellence". What do these objectives entail and how far they are achieved? Illustrate your answer with examples.

3. Answer any three of the following questions in about 300 words each.

a) How will you define 'higher education' in terms of its three characteristics?

b) What are the objectives of establishing academic staff colleges?

c) What is meant by the 'extension work' being an important activity for a teacher in higher education? Give examples in support of your answer.

d) Define 'neocolonialism' in education. What are its operational implications?

e) Discuss two ways in which additional resources can be mobilized for higher education.

4. Answer the following in about 900 words.

Discuss the status and role of Teachers' Organisations in India. Critically evaluate their functioning in the context of the fostering professionalism in colleges and universities.

*The old course code of PGDHE.*
1. Answer the following in about 900 words.

What are the essential characteristics of an evaluation tool? Explain each of these characteristics with suitable examples.

**OR**

Suppose you are asked by your Principal to develop a question paper in the subject area you teach. Discuss the steps you would follow while framing the question paper.

2. Answer any three of the following questions in about 300 words each.
   
   a) What is teacher competence? Describe briefly the teacher competencies that you would require to teach your subject effectively.
   
   b) Describe briefly different styles of organizing content in the subject areas you are teaching.
   
   c) Describe briefly different styles of organizing content in the subject areas you are teaching.
   
   d) State the roles of a chairperson when he/she conduct an interaction session?
   
   e) What is OHP? Describe the instructional values of using OHP in a classroom situation.

3. Answer any three of the following questions in about 300 words each.

   a) What are the functions of evaluation in the instructional process?
   
   b) Discuss the need of formative and summative evaluation in the teaching-learning process.
   
   c) What steps would you take to increase the credibility of internal assessment?
   
   d) Why is non-cognitive development of students not given much emphasis in the college activities? What could be done to overcome these difficulties?
   
   e) How do you evaluate students performance in a seminar session?

4. Answer the following in about 900 words.

What is an instructional system? Discuss with suitable examples the steps that you would take towards the development of an instructional system.
1. Answer the following in about 900 words.

Identify and discuss the role models that Indian college girls and boys tend to emulate. In what way do these models influence their personality development. Illustrate your answer with examples.

OR

Given our cultural context what would you describe as the characteristic features of Indian college going youth.

2. Answer the following in about 900 words.

List and analyse the factors that contribute to the shaping of attitude in Indian college youth. Illustrate your answer with examples.

OR

Discuss how knowledge of the processes of learning help a college teacher to teach effectively. Illustrate your answer with examples.

3. Answer any three of the following in about 300 words each.

a) Discuss in brief three common problems faced by a college student.
b) Discuss briefly the role a college teacher has to play in helping students to overcome their academic problems.
c) Why understanding of counseling techniques is important for a college teacher? Illustrate your answer.
d) Discuss briefly three personal problems faced by girl students at college level.
e) Explain three career choices a rural college student faces while studying in a college.

4. Answer the following in about 900 words.

Imagine a situation in a higher education institution in which a natural leader (student) emerges in a group. Analyse the circumstances that have paved the way to such an emergence. Illustrate your answer with an example.
1. Answer the following in about 900 words.

"Curriculum development is a cyclic process". Discuss this in the context of stages to be followed in the process.

OR

Define curriculum evaluation. Discuss different stages you would like to follow in evaluating an undergraduate / postgraduate level curriculum.

2. Answer the following in about 900 words.

Discuss critically different structural principles one needs to consider for designing an institution of higher learning in the context of its effective management of academic and administrative activities.

OR

Explain how human resource planning is different from human resource development. Discuss different strategies one needs to adopt for systematizing the human resource development in an institution of higher learning.

3. Answer any three of the following in about 300 words each.

   a) Discuss briefly the promotion and co-ordination functions of University Grants Commission in the context of higher education in India.

   b) Distinguish tertiary education from university education. Critically discuss any three important features of unitary universities in India.

   c) Explain at least five important factors which contribute in forming the classroom groups. How do these groups emerge in a higher education institution?

   d) What are the roles of diagonal communications in the management perspective of the group in an institution?

   e) Discuss at least three problems that you, as a teacher, encounter with time management. What kind of measures would you like to take to resolve such problems?

4. Answer the following in about 900 words.

Narrate an incident that you have come across inside the classroom while you were teaching / studying in an institution of higher learning, regarding the issue related to classroom management. Briefly narrate the event on the following points:

   a) the context in which it occurred,
b) the sequence of occurrence of the event, and

c) the action taken and the final outcome of the event

Also, analyse the above mentioned episode in the context of classroom management. To support your answer you may analyse the above episode in the following points:

a) the nature of classroom influence,

b) the rationale for action taken in general, and

c) the changes that were observed in the classroom climate.
ES-301: HIGHER EDUCATION: ITS CONTEXT AND LINKAGES

Time: 3 hours

Maximum Weightage: 50

Note: i) Attempt all four questions

   ii) All questions carry equal weightage.

1. Answer the following in about 900 words.

   Development means different things to different people. How will you define development in the Indian context? How can higher education contribute to development?

   OR

   Discuss critically the policies and plans of higher education in India as incorporated in the five-year plans.

2. Answer the following in about 900 words.

   'Education is just one variable in the relevant cluster of variables, and it is not a prime mover of social change'. Support with reasons.

   OR

   What does the term 'equality of opportunity' in education mean? Critically discuss the evolution of the Indian system of higher education with reference to this goal and the implications of failure therein.

   OR

3. Answer any three of the following in about 300 words.

   a) What are the major functions of the University Grants Commission (UGC)? Substantiate your answer with examples from your own state.
   b) What are the main areas of concern in the case of financing of higher education? Discuss any two such issues.
   c) Discuss your opinion on the recommendation of delinking degrees from jobs as a step towards checking unemployment.
   d) Describe any two features of restructuring courses at the undergraduate level.
   e) What are the two major implications of giving autonomy to colleges?

4. Answer in about 900 words.

   Discuss the external and internal pressures that hamper the effective functioning of the university system. Illustrate with examples from your own context.
ES-302: INSTRUCTION IN HIGHER EDUCATION

Time: 3 hours

Maximum Weightage: 50

Note: i) Attempt all four questions
   ii) All questions carry equal weightage.

1. Answer the following in about 900 words.

Why do you undertake project work in your institution? Discuss different types of projects that you have conducted.

OR

What is a lecture? Discuss the steps you would like to follow while delivering a lecture. What are the merits of lecture method over other methods of instruction?

2. Answer any three of the following questions in about 300 words each.

   a) Differentiate between measurement and evaluation. Describe the benefits of evaluation for teachers and students.
   b) What are the drawbacks of the present numerical marking system? How does the grading system overcome these drawbacks?
   c) Distinguish between norm-referenced testing (NRT) and criterion-referenced testing (CRT). Describe briefly the role of NRT and CRT in the instructional process.
   d) Discuss various aspects that you would consider while revising the syllabus in the subject areas you are teaching.
   e) What do you mean by continuous internal assessment? Discuss its merits and demerits.

3. Answer any three of the following questions in about 300 words each.

   a) Define ‘reliability’ of a test. Discuss briefly different types of reliability of a test with examples.
   b) What do you mean by instructional objectives? Describe the role they play in the instructional process.
   c) What is meant by content analysis? How does it help in processing qualitative data?
   d) Explain briefly the uses of interview and questionnaire techniques for evaluating students’ performance at the college level.
   e) What are the demerits of essay type items? Describe briefly the measures that you would take to improve such items.

4. Answer the following in about 900 words.

Suppose you are the Principal of an autonomous college which plans to improve the quality of instruction. Discuss the steps that you would take to improve the quality of instruction in the college.
1. Answer the following in about 900 words.

Discuss the various academic and personal problems faced by lady students coming from rural areas. How would you, as a college teacher, help them to overcome these problems? Illustrate your answer.

OR

Why is understanding the various aspects of common problems faced by a college student very important for a college teacher? Support your answer with illustrations.

2. Answer the following in about 900 words.

Discuss group dynamics with examples.

OR

Discuss any five factors responsible for interpersonal conflicts. Illustrate your answer with examples.

3. Answer any three of the following in about 300 words each.

   a) In what way do cultural factors affect the development of intelligence?
   b) What is the basic feature of the formal operational stage? How does it differ from concrete operational stage? Illustrate your answer with an example each.
   c) Describe in brief the basic personality traits of an Indian college youth.
   d) According to Erikson the development of “identity” rests on three processes. Describe the processes.
   e) Describe the moral development of an average college youth from an Indian context.

4. Answer the following in about 900 words.

Describe how the methods of teaching have undergone changes through different periods, from the process of learning. Describe the present context. Give reasons to support the changes you observed.
1. Answer the following in about 900 words.

Define institution building. Discuss with proper illustrations on different areas of management functions which contribute significantly in building a higher education institution.

OR

"Autonomy and accountability are two sides of the same coin". Discuss this critically with illustrations in the context of university management and governance.

2. Answer the following in about 900 words.

Why does one need to have the fundamental knowledge on library management? Discuss different management strategies one needs to evolve for the effective management of physical aspects of a library in an institution of higher learning.

OR

Why does a teacher need to have micro-level time planning for his/her effective management of academic activities in an institution of higher learning? Discuss with illustrations on different approaches one can follow as a teacher for better time management.

3. Answer any three of the following questions in about 300 words each.

   a) Explain briefly different aspects that one needs to evaluate in any educational programme. Give your answer with examples.

   b) What is developmental tryout? How does this help in managing groups in an educational institution? Give your answer with illustrations.

   c) How does interpersonal management help in managing groups in an educational institution? Give your answer with illustrations.

   d) Discuss the steps you would like to take for planning and organization of an extension activity to be undertaken by your college / university department.

   e) Critically examine how autonomy operates at different levels in an institution of higher learning with illustrations.

4. Answer the following in about 900 words.

Select a topic that you would like to teach to your students from the subject of your specialization. Identify the specific criteria that you would like to follow while selecting inputs for the topic, such as:

   a) its instructional objectives

   b) structuring the subject matter

   c) your student background characteristics, and
