A Feedback Study on the Student Preference in Edusat to Design Effective ICT-enabled Interventions

EduSat is being used by IGNOU to teach its learners at a distance. To understand its effectiveness on the learners, a feedback was conducted on the students of all disciplines who had assembled on the day of the Convocation of IGNOU. The objectives of this quick study were i) to study the learner preferences in the Edusat teleconferencing, and ii) to obtain immediate feedback which would aid in planning ICT-enabled EduSat intervention. Impact of iPads on Distance Education

The advent of iPad, Kindle, similar eReaders, touchscreen and tablet-shaped devices has given tremendous impetus to the computing technology making it more portable. These new devices are set to revolutionize both the teaching and learning activities. They are capable of providing instructional support to teachers at their finger tips. Ipads enable the teachers and learners to stay connected. These devices provide opportunity for innovative instruction far surpassing the laptops and mobiles. iPads thus seem set to transform the way technology is used in instruction. [More...](#)

News & Events:

The university has signed a Memorandum of Collaboration (MoC) with the former captain of Indian Cricket Team, Mr. Krish Srikanth's Sun On Line India Pvt. Ltd (SOLIPL). The MoC will lead to launch of an electronic career guidance portal www.CareerStrokes.com paving the way for the students of IGNOU to empower and equip themselves with the career-enhancement modules offered by the portal.
