Dear Participant,

Under the sponsorship of DBT, Govt. of India, School of Sciences organising a One Day workshop on “**Foldscope: An Educational and Research Tool**” on August 23rd, 2019. This workshop will act as a platform to the interested School and College Teachers of Delhi and NCR and research scholars of School of Sciences of IGNOU, to gain the knowledge and hands-on working experience with Foldscope.

Foldscope (a foldable paper microscope with 140x resolution) is a simple and best teaching aid and also used as a field microscope. This workshop will enlighten the participants to **think about innovative research and contribute to the welfare of science in general and society in particular**. In this light, the present workshop is an endeavor to comprehend the thoughts and ideologies of Govt. of India towards promoting an innovative and skill based education.

We believe that this workshop will sensitize the participants towards innovative science education and relate them to transform the needs of society.

Workshop details:

- Introduction, innovation and applications of Foldscope;
- Sharing of Foldscope working experiences by Principal Investigators;
- Demonstration and assembly of Foldscope, and
- Hands-on session on Foldscope: An educational and research tool.

Last date for Registration: 16th August 2019

Confirmation of Participation: 19th August 2019

“A picture is worth a thousand words”
