

# Workshop on Design and Development of SLMs for Distance and Online Learning for Newly Recruited Faculty of IGNOU (Second Series: Batch 1)

**Coordinators:** Prof. C.R.K Murthy, Dr. Ali Asgar & Dr. Tata Ramakrishna

## Background

Distance growing Education succeeded Correspondence Education long time back because of its innovative multi-media approach, demands and growing expectations of the people across the globe. It caters to the educational needs of a large gamut of learners who are deprived to receive education due to some or other reasons. A few reasons for increasing acceptance of distance education include geographical barriers, financial factors, cultural issues, family and professional responsibilities, etc. Indira Gandhi National Open University (IGNOU) as a mega open university and also identified as the central university in India has one of the important objective out of many is to provide education to all sections and categories of people to fulfill their demands irrespective of sex, religion, and age. It offers more than 200 courses across the globe having 67 Regional Centres (RCs) and more than 2000 Study Centres (SCs) and with the Headquarter at Maidan Garhi, New Delhi. It offers UGC approved vocational and professional courses for the various target groups. It provides its learners various academic and administrative support services including supply of self learning print materials (SLMs), Interactive Radio Counseling and Teleconferencing etc. IGNOU as an apex body of Open University systems in India sets examples for other state open universities, CCIs, distance education directorates in various universities. It prepares its SLMs in robust manner and recognized as a premier open university of the world because of its quality study materials and technological support to its students.

IGNOU is not limited with the above functions and it has other dominant and striking functions for the upliftment of education in the country. Amid the expanding functions of IGNOU, the newly joined teachers are expected to know various functions of Divisions and Schools of the University. Further they need to get acquainted with the system, identify their path, for smooth running of their respective academic programmes and achieving the IGNOU objectives. To make familiar and orient the newly joined teachers with all these issues, STRIDE has already organized induction cum orientation programmes to all new faculty in three batches from Sept. to Nov. 2021.

After inducting the newly joined teachers into the ODL system in First Series of Capacity Building initiative, it is the time to involve them in advanced and specialized workshops on Design and Development of Self-learning Materials for distance and online learning; which are core media in the instructional system of IGNOU. The present workshop is planned with the following objectives as part of Second Series for Batch - 1:

## Objectives

The objectives of the proposed workshop are to:

- explain the origin and growth of distance education across the globe with special reference to curriculum development in blended and online learning;
- discuss the instructional system at IGNOU and introduce the role and responsibilities of a teacher in design and development of programmes in ODL and online learning;
- explain the role of Self-Learning Print Materials and Online Courseware at IGNOU;
- describe the steps involved in development of a SLM unit and integration of technology;

प्रो. संतोष पांडा  
निदेशक, स्ट्राइड, इन्. नई दिल्ली-68  
Prof. Santosh Panda  
Director STRIDE IGNOU, New Delhi

- prepare teachers to develop a unit of SLM and present it for peer and expert comments and modify the same based on suggestions;
- analyze issues involved in Design, Development and revision of courses/programmes at IGNOU;
- discuss the interrelation and collaboration between various Divisions and Schools of IGNOU focusing on material design, development and distribution;
- illustrate various support services for the distance learners keeping in view new technological developments at IGNOU and the requirements of SLMs for distance and online learning, and
- identify the major challenges and develop the techniques to overcome those challenges in IGNOU context particularly in design and development of course ware.

### Participants

In the first Batch of second series of CB initiative 23 newly joined teachers in various disciplines/schools of IGNOU headquarters will be participating.

### Mode of the Programme

By keeping the COVID-19 pandemic situation in view, with following all precautionary measures and social distancing this Programme is a proposed to be conducted through face to face (F2F) mode.

### Duration

The duration of this workshop will be six (06) days, i.e. May 17-23, 2022.

### Methodology

Lecture presentations followed by interactions on each component of SLM and online course ware followed by hands on practice of respective component. Presentation of the SLM unit developed, for comments by peers and experts. There shall be visit to some of the relevant Divisions of IGNOU also. Focus will be given on panel/group discussions and sharing individual experiences of working in ODL with focus on design and development of the learning materials. Attention will be paid newly joined to individual participant in practical and hands-on experience.

### Resource Persons

Faculty from STRIDE and other Schools of Studies, Divisions/Units and some external experts on ODL would act as Resource Persons in this six days workshop.

### Resource Materials

Soft copies of relevant Handbooks and other material developed by STRIDE and others (e-copies) shall be used as the base material for the programme.

### Expected Outcomes

At the end of this workshop each participant is expected to:

- Discuss various components of teaching learning processes in ODL and Online system.
- Describe processes involved in the design and development of the course materials for ODL and Online system of education provided by IGNOU;
- Develop a unit in SLM format for distance learning with integration of technology;
- Explain various functions of IGNOU and understand the interrelation and collaboration between various Divisions and Schools of IGNOU, particularly in design and development of course material.
- Discharge his/her role as a distance teacher towards the learners' needs with sensitivity involved therein particularly in design and development of SLM.
